

# 2022 WPC SPRING ENVIRONMENTAL CONFERENCE

Presenter Bios

May 10, 2022

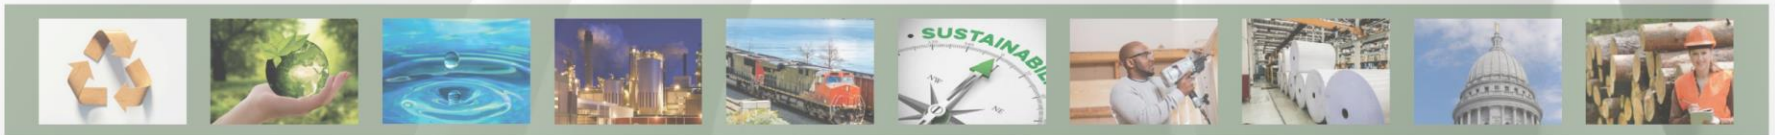

# Tom Boldt

Representing Boldt's fourth generation of family leadership, Tom Boldt stands as the bridge between a groundbreaking past and a rich, exciting future. A long time visionary and committed leader, Tom embraced evocative philosophies such as sustainable building and continuous improvement discipline as they entered the public consciousness and building industry conversations.

Tom remains deeply dedicated to providing Boldt customers with unparalleled safety, creativity and exceptional value as they build to achieve their business goals. And that dedication is evident throughout Boldt's construction landscape.

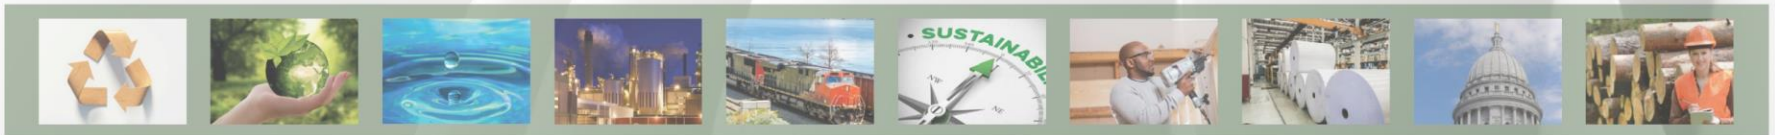

## Lisa Bauer-Lotto

Wisconsin Paper Council Air Quality Committee Chair, Lisa Bauer-Lotto. Lisa is the Corporate Director of Environmental and Sustainability at Green Bay Packaging, Inc. In this role, Lisa heads up the strategic planning for Green Bay Packaging. She is instrumental in directing environmental compliance, sustainability and fiber certification programs for Green Bay Packaging's five product lines, and 37 manufacturing facilities in 15 states.

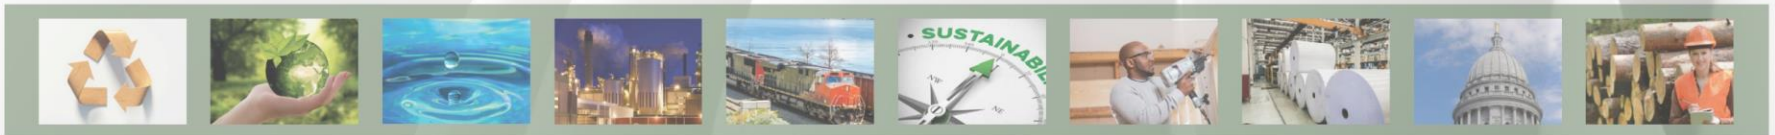

# Patrick Stevens

Patrick Stevens is WPC's Vice President for Environment & Regulatory Affairs, and General Counsel. Over the course of his career, Pat has worked for a private law firm, three different trade associations, and as a state Assistant Attorney General. Pat also served at the Wisconsin Department of Natural Resources, where he headed up the Environmental Management Division, and later served as Assistant Deputy Secretary.

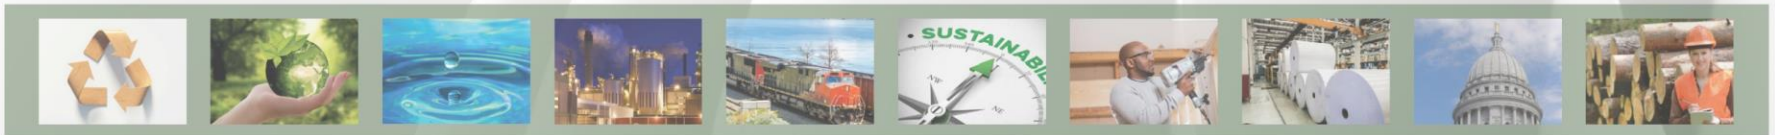

# John Piotrowski

John Piotrowski, a chemist by training, is WPC's Water Quality Committee Chair and has worked full-time in the industry for 32 years. He has been with Packaging Corporation of America (PCA) for the past 27 years and currently serves as the company's Vice President of Environmental Operations. Prior to joining PCA, John worked for International Papers (Merrill, WI) and Georgia Pacific (Port Edwards, WI).

In addition to John's work at PCA, John has made significant contributions to the industry. John is a long-time leader at WPC. In the 1990s he served as Chair of WPC's Solid Waste Committee and was later asked to serve as WPC's Water Quality Committee Chair. John has served as Water Quality Committee Chair for approximately ten years. He also is very active in an array of American Forest & Paper Association committees and is the Air Quality Committee Chair for the National Council for Air and Stream Improvement.

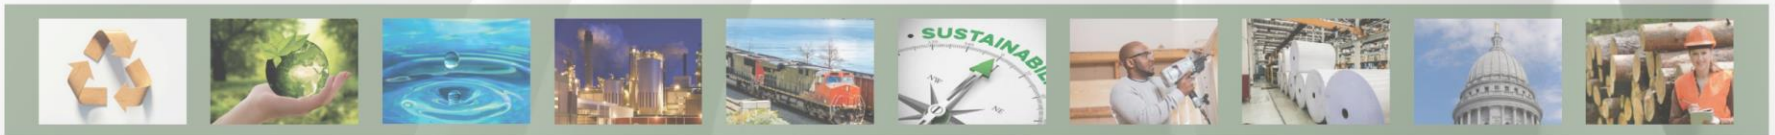

# Andrew Stoub

Andrew Stoub is the Environmental Manager for the Green Bay Packaging-Green Bay Mill Division. Andrew spent the first 11 years of his career working in the environmental field for the steel industry in northern Indiana before joining Green Bay Packaging in 2017. Andrew is responsible for all environmental compliance and permitting at the mill. Andrew was instrumental in the construction and 2021 commissioning of Green Bay Mill Division's 100% recycled paper machine, natural gas/biogas boilers, and anaerobic digester and effluent treatment plant that supports the mill's recycled and reclaimed water system.

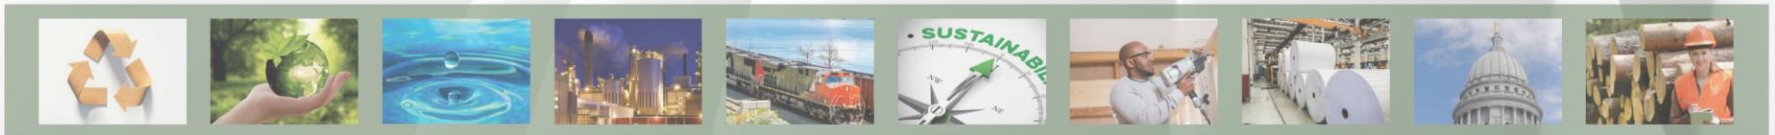

# Brad Barnhart

Brad Barnhart, Ph.D., P.E., is a senior research scientist at NCASI, Inc. and works primarily in the Water Resources Program. He received his Ph.D. in physics from the University of Iowa in 2011 and has over 10 years of government and industry research experience focused on environmental topics related to water quality standards, watershed and hydrologic modeling, and statistical analyses. He was recently licensed as a Professional Engineer in the State of Wisconsin and currently lives in Middleton, WI.

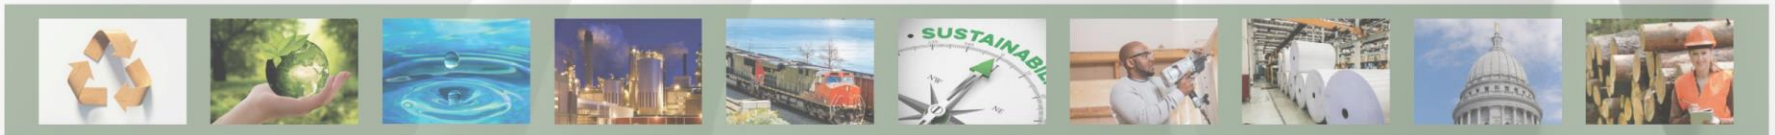

# Giffe Johnson

Giffe Johnson, Ph.D. has been a member of the NCASI team since October 2017. Prior to joining NCASI, Dr. Johnson served as a faculty member of the University of South Florida's Toxicology and Risk Assessment program and Assistant Director of Research for the Center for Environmental and Occupational Risk Analysis and Management. Current areas of interest include bringing the best science to bear in the development of National Ambient Air Quality Standards, improving the science behind the development of Human Health Water Quality Criteria, and participating in the development of emerging regulatory practices for per- and polyfluorinated alkyl substances (PFAS).

## Tim Hunt

Tim is the Senior Director of Air Quality Programs at the American Forest & Paper Association and the Vice President for Environment at the American Wood Council. He is responsible for working with member companies to develop positions and implementing advocacy strategies on behalf of the forest products industry on EPA clean air regulations and policies. Tim's work is focused on the cumulative impact of air regulations as well as individual regulations, such as, MACT, NAAQS, Air Transport, NSR, and climate policies. Tim is a member of EPA's Clean Air Act Advisory Committee.

Prior to joining AF&PA in 2000, Tim worked for the American Petroleum Institute (API) on clean air issues. Tim also worked for nine years at the Office of Management and Budget (OMB) reviewing Water, drinking water, pesticides and toxic substances regulations. Tim started his career at EPA in the Policy Office.

Tim received his Master's in City and Regional Planning with a specialization in environmental policy from Harvard's Kennedy School of Government. Tim holds an undergraduate degree in Biology and Environmental Studies from Colby College in Maine.

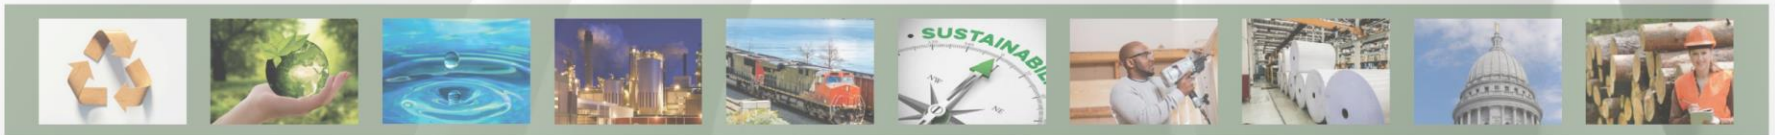

# Peter Tomasi

Peter A. Tomasi is of counsel and a business lawyer with Foley & Lardner LLP, where he is a member of the firm's Environmental Regulation Practice and is co-chair of the Environmental, Social, and Corporate Governance (ESG) Team. His practice focuses on regulatory compliance and renewable energy. Peter has further experience with general civil, commercial and intellectual property litigation.

Pete received his law degree from Duke University and received a B.A. in Chemistry from the University of Chicago.

# Delanie Breuer

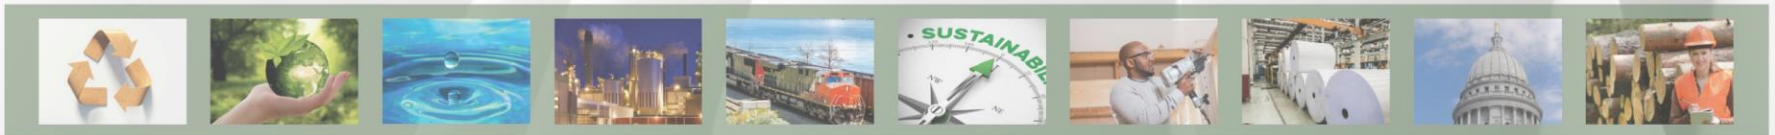

Delanie Breuer is an experienced lawyer, helping clients navigate the complexities of government regulation. She has worked with a variety of state and federal agencies and specializes in energy and environmental permitting, regulation and litigation. Delanie has particular expertise with permitting large, energy-generating facilities including wind, solar and battery systems.

Her previous roles with the Wisconsin Public Service Commission and as Chief of Staff at the Wisconsin Department of Justice, combined with her technical experience as a mechanical engineer, uniquely equip her to be an effective legal partner.

Her thorough understanding of agency operation and the relationships she maintains with regulators are very beneficial when negotiating on behalf of her clients. These include individuals, small businesses, municipalities and large corporations that need assistance with permitting and compliance through state and federal regulatory agencies.

Delanie is a graduate of the University of Wisconsin Law School, and has a B.A. in Mechanical Engineering from the University of Wisconsin-Platteville.

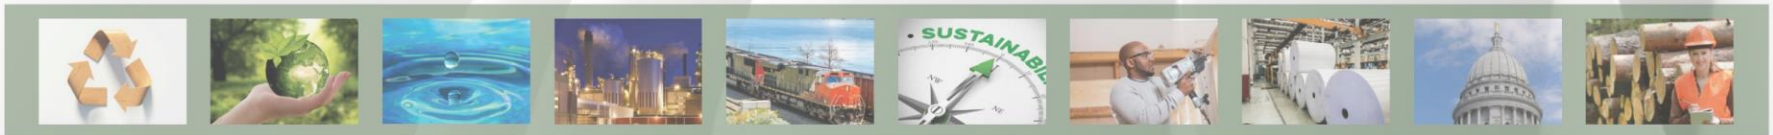

# Alan Walts

Alan Walts is Director of the Tribal and Multi-media Programs Office in U.S. EPA Region 5, which serves Illinois, Indiana, Michigan, Minnesota, Ohio, Wisconsin and 35 federally-recognized tribes. This Office manages the Region's Tribal, International, National Environmental Policy Act (NEPA), Environmental Justice, Children's Health, Environmental Education, and Schools programs. Alan joined EPA Region 5 as a staff attorney in 1996; and from 2007-2019 directed Region 5's Office of Enforcement and Compliance Assurance. Alan is a graduate of Wesleyan University and the University of Michigan Law School.

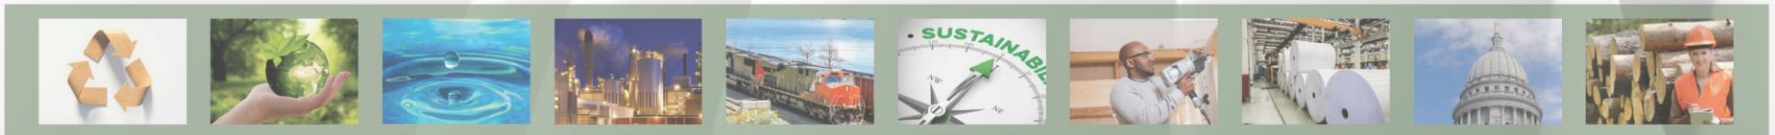

# Gail Good

Gail Good is the Acting Administrator for the Environmental Management Division at the Wisconsin Department of Natural Resources. She has been with the Department of Natural Resources since January 2000 and became the Air Management Program Director at WDNR in October 2015 after serving for 3 years as the Air Monitoring Section Chief and 12 years as a dispersion modeler in the Permit program at WDNR. In addition, Gail is active in the National Association of Clean Air Agencies, serving as a co-chair of the Emissions and Modeling Committee. She is also serving a second term to the federal Clean Air Act Advisory Committee. Gail has an M.S. in Atmospheric Science and an M.S. in Air Resources Management from the University of Wisconsin – Madison.

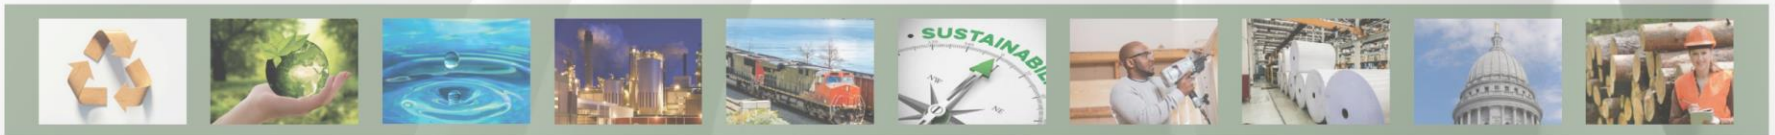

# Jason Knutson

Jason Knutson is the Wastewater Section Chief at DNR. The Wastewater Section is responsible for drafting industrial WPDES permits for large manufacturers and industries in the state, administering the state's industrial pretreatment program, and reviewing plans and specifications for all wastewater treatment, storage, and conveyance construction. Prior to his 8 years at DNR, Jason worked on a series of water quality projects in Nicaragua, Ghana, India, and Bolivia. Jason has a BA from Luther College and a masters in civil and environmental engineering from MIT and is a professional engineer in the State of Wisconsin.
